Words from some of Colleen's clients...

Colleen helped us to build our family through two adoptions. She took our situations to heart, and helped us get through some very difficult times with her legal expertise, insight for the big picture, her fighting spirit and especially her kind, reassuring and patient manner. We always felt comforted that she was on our side. We consider Colleen a part of our family!

—Fred and Anita

Colleen is a great asset to Adoptions with Love by JFS. She is professional, compassionate and flexible. I always feel confident referring birth parents and adoptive parents to Colleen, because I know they not only will receive accurate, up-to-date legal information, but they also will have a trusted professional on their side.

—Jessica Carty, LCSW, Adoptions with Love by Jewish Family Services

We were thrilled with the service that Colleen and her staff provided to us, from our pre-match meeting all the way through to the finalization of our daughter's adoption. They handled the entire process and every question with professionalism and a level of care that helped us feel secure and taken care so we could enjoy our daughter. We would recommend them to anyone pursuing building a family via adoption.

—Mike and Susan

Thanks for all you've done for us and our little miracle child in the adoption process.

—Scott and Debbie

Colleen took on our case, one that needed to be tried, and did so exceptionally well. She kept us focused on our goal: adopting the girls. Colleen is personable, caring, trustworthy and one tough lady. You will never find a finer person to represent your family.

—Pete and Amy

Thank you for all the hard work you did for us on the adoption. Without you we wouldn't have the love of our lives. Thanks does not even begin to cover the gratitude we feel...you are always welcome at our house!

If it weren't for Colleen Quinn, we know that we would have certainly gotten lost in the legal maze of the surrogate process. With Colleen at our side, we felt confident that no matter what happened, the whole family would be taken care of, including our precious new bumble bee.
